1 1/4" Meter	\$108.00
1 1/2" Meter	\$147.00
2" Meter	\$234.00
3" Meter	\$438.00
4" Meter	\$729.00
6" Meter	\$1458.00
8" Meter	\$2334.00
10" Meter	\$3498.00
12" Meter	\$4665.00

Sewer Charge

The sewer usage figure for each property is determined by adding together the water consumption amounts on the January and April Water & Sewer bills and dividing that number by two. The figure derived is the average number of gallons used by the property owner over the winter months.

This new average appears on the April bill each year and remains constant for the following three quarters, regardless of water consumption. By doing this, sewer charges do not become inflated during the summer when additional water is being used for outdoor purposes.

The sewer rate is \$6.24/1000 gallons. Minimum quarterly sewer charge is \$49.92.
